KNIT—-—SEW——CROCHET——FELT

Every year, 23,000 American babies die before their first birthday. Our infant mortality rate is the **worst in the developed world.**

TheMourningProject.com

United Against Infant Mortality

TheMourningProject.com is asking members of the fiber arts community to create one pair of **handmade baby booties** (in white, black and/or gray) for each child lost. The baby shoes will become part of a travelling art exhibition to advocate for changes in policy that will *save lives*. Learn how you can participate by April 1, 2020.
